1.

Thanks for purchasing from us. Please feel free to contact our service whenever you need help. This manual is applicable for Economic AHD DVR series, which also works for other channels. Only a few instructions for product operations are included, for more information, please read the CD or scan the two-dimension code at first page.

Any enhancement in product features shall be added into the manual consistently without further notice."

3.2: Boot up

Connect to power, the indicator turns on, DVR boots up

Note:

1. Use matched adapter to avoid abnormal situation or damage.

2. Shut down power switch (some might have power switches)"

3.3: Shut down

To shut down the device, there are soft-Off and hard-off.

soft-off: Go to <main menu>-<shut down>
hard-off: Plug the power on the rear panel.

Note:

1. Power recovery: When DVR is shut down abnormally, reboot it, all recordings will be saved automatically and restore to the previous status.

2. Replace the HDD: Shut down the power before replacing."

3.4: System Login

When DVR boots up, the user must login and the system provides the corresponding functions with the user purview.

There are two user settings. The names are admin, default. Admin is default with no password.

5. HDD SETTINGS

DVR must contain HDD, as follows:

5.1 HDD management

Alter installing HDD, boot up the DVR, go to <main menu>-<management tools>-<storage management> to format the HDD. Then set the HDD as read-write.

Note: At least one read-write disk is needed for normal recording.

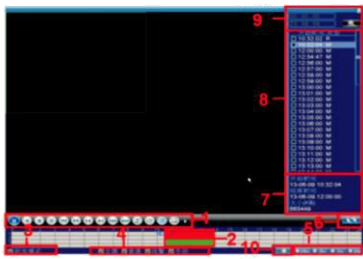

6. PLAYBACK

There are two ways for you to play the video files in the HDD

1. In the right shortcut menu
2. Main Menu>Record>playback

Note: The HDD which saves the video files must be set as read-write or read-only state

1. Playback control
2. Time display
3. Synchronous
4. Video type
5. Time schedule options
6. Search by time/switch mode
7. File attributes
8. Listed files
9. Search by time
10. Search by storage location

Double-click the file name to playback the video.

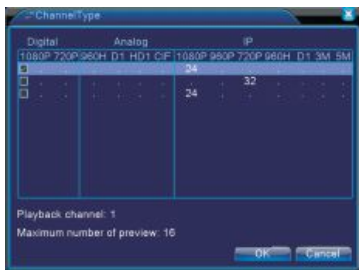

[Search]: Search and display the IP address within the same LAN, such as IPC, DVR and NVR. Choose one IP address, device name, type, IP address, port and protocol will be entered automatically.

[Protocol]: Support NETTP, ONVIF and all. Default is all.
